

**Stardew valley secret forest**

I'm not robot  reCAPTCHA

**Continue**

So you're all made of hardwood, right? Well check it out. Northwest of the master tower on the edge of the map (in the same zone) you can actually pass and it will lead you to a secret forest with some hardwood stumps. They are respawn, but as yet im not sure as frequently. Edit: They respawn daily. So it's 8 solid wood a day from there, 4 stumps. Page 2Posted byu / removed 4 years ago 7 comments The location of the Secret Forest on the map in Stardew Valley The Secret Woods is a great place to regularly visit in the Stardew Valley. You'll find enough hardwood, lots of areas to dig out with pickaxe (and therefore plenty of opportunities to find books). It is also home to a mysterious statue that gives one of the Stardrops games that increase your character's maximum energy by 34. Getting into the secret forest stump blocking Secret Woods is in the far left corner as soon as you come out of the south exit of the farm. To unlock Secret Woods, you must first upgrade your axe to steel or higher. Information about the purchase of metals for upgrades can be found on the page of related instruments. Once this is done, you can break the log blocking the entrance. Bring a weapon, a hoe, and an axe for this trip. Go through the southern exit of your farm. You'll be in Cinderella Forest. Now head straight to the left along the edge of the map. You can use the axe to punch and enter the Secret Forest, previously designated ????? On the map. Hardwood and worm stumps in a secret forest grow back every day, giving you a reliable source of hardwood. The forests contain 6 stumps that are collected every day, giving a total of 12 hardwoods. As far as I know, you get a feeding experience for them (actually a decent amount) but also from bringing hoes and digging up worms here. This place almost has at least 3 worms, so you can wash up the museum's book collection and learn more about the game. While the first four stumps are obvious, you get the last two by going through the hidden passage shown above. The slimes area always has at least a few slimes, so you can get some combat XP. They are not dangerous as long as you are armed with the proper weapon. Fishing Spot - Catching Woodskip to catch woodskip in a secret forest pool in the secret forest is home to Woodskip, one of the rarest species of fish in the Stardew Valley. It is used for at least one package at the Community Center. The statue, Stardrop and Berry's sweet gem Giving statue of Berry's Sweet Gem (as you would give the NPC a gift by holding it and clicking on them) will result in you getting a Stardrop that raises the maximum energy. Far to the left of the Secret Forest, you can explore the statue of the old master Cannoli. He says: Old Master Cannoli - Still looking for the sweetest taste. If you bring it a sweet berry gem, you'll get Stardrop in return, maximum energy constantly. A traveling basket can randomly sell you rare seeds that can be used to grow Sweet berry gems for a statue in the Secret Forest. A traveling basket can sell you a rare seed that will allow you to grow them yourself. Visit it every Friday and Sunday. A mobile trolley appears on the way to the Secret Forest - you can not miss it. From time to time a rare seed will be available for purchase of about 1000G (for seeds) to 12,000G (for a fully grown plant). Sweet gem berries grow from rare seeds in autumn and take 24 days to grow, so you'll want to plant it very early in the fall, on the 4th day. From Stardew Valley Wiki The Secret Woods in Spring The Secret Woods is an open area where you can climb from the northwest corner of the Cinderella forest. The entrance is initially blocked by a fallen log, which can be cleaned after upgrading to a steel axe. Secret forests contain seasonal feed and slimes that will attack the player. The secret forest also contains six large stumps that are collected daily and can be harvested for a total of twelve hardwoods each day. Four stumps are at the top of the forest, and two are located, strolling through one of the two covered passages to the smaller lower area. One passage through the trees is slightly southeast of the top set of three stumps, and the other south of the entrance to the forest, about 2-3 tiles to the right of the bush. The first pass is a straight line, but the latter requires the player to go south, then left, then south again. The old master of Cannoli Old Master Cannoli is a statue in a secret forest. When interacting with, he will give a description: -Old Master Cannoli-- ... Still in search of a sweet taste... If the statue is given a sweet berry of gems, Stardrop is taken in response. Feeding Places in a secret forest where forage items can spawn. Feed items found on the ground in the Secret Forest are: Forageable items spawn average 0.8-1.4 per night, depending on the season: 0.9 in spring, 1.0 in summer, 0.8 in autumn and 1.4 in winter. The map shows possible locations as red tiles. Artifact stains are not artifacts possible when digging up artifact spots in a secret forest. Other possible elements: Most of the year, there are only 8 tiles (near the pond) where artifact stains are possible, making them very rare, with an average rate of 0.01 per night. In winter, the average rate increases to 0.7 per night. Villager Paths No villagers walk through the Secret Forest so that items can be safely placed anywhere. Fishing zones in the Secret Pond of the Forest. Fishing is possible in a pond in the southwest part. The unique fish, Woodskip, can only be caught here in most games. (The only exception is if a forest farm map is selected, in which case Woodskip can also be caught on the farm). Carp and som are also possible. Affordable fish are the same all year round, although som with somies are usually unavailable during the summer. References - For each commodity, the percentage provided is a percentage percentage rate feed the goods that will be specified item for this season. Inputs are Locations.xml, which are processed by the code in GameLocation::spawnObjects. Of the 1920 total tiles in Secret Woods, 149 (8%) were in secret. There are valid caviar places for standard forage elements. For more information on spawning feed items, see 1920's Total Tiles in Secret Woods, 8 (0.4%) are real spawning places for artifact spots in spring, summer and autumn. 423 (22%) are valid spawning grounds in winter. For more information, see the artifact spot. Story 1.4: Blowing leaves in a secret forest in the fall is now red/orange rather than green. 1.4.4: Fixed an error where ambient noise will cycle incorrectly in Secret Woods at night. Secret forest areas are available after receiving an iron axe. To get there, you have to destroy a large log a few meters above the Tower of the Wizard, right west of the place where the traveling merchant appears. You'll come across some low-level slime, a small pond that contains Woodskip, reharvestable hardwood, and season-depeedant unique forage items such as fiddlehead ferns, Red Cap mushrooms, and Chanterelles. In the ruins is a stone statue. Give the statue a sweet berry of gems from a rare seed to get Stardrop. I didn't know about it, even the wiki said that :)Page 2 6 comments from the administrator on February 6, 2019 (2 votes, average: 5.00 out of 5) Download... From Stardew Valley Wiki Cindersap Forest during the spring Cindersap Forest is a large outer region found in the southwestern part of the Stardew Valley. It has outlets north to the farm, east to Pelican Town, south to sewers, and northwest to Secret Woods. Cindersap Forest is the only place where you can find spring onions. There are two festivals in Cinderella: the Flower Dance of the 24th Spring and Ice Festival 8th Evening. At the beginning of the game, there are many branches, stones and spans throughout the forest. If cleaned, the trash will appear every spring 1. Image caption The occupiers of Marnie Ranch located in the northeast corner of the map, this is where you can purchase animals and animals related to the goods. Marnie lives here with her niece and nephew, Jas and Shane. Marnie Jas Shane Leahy's cottage is located south of the pelican road, where Leah lives. Leah Abandoned House located southwest of the pond, this run down building will open a store when you start earning Achievements. After opening up for business, the mouse will sell you hats based on the achievements you have unlocked. The Magic Tower, located on the west side of the map, the Wizard lives here. You can enter the tower as soon as you were in the community center for the first time, reviewed the letter in the crafts room, and received a letter from the master. The Wizard of Secret Woods Secret Forest is an area adjacent to the northwest corner of the forest. To enter, you must remove a large log found in Cindersap Forest, perhaps once A steel axe upgrade has been made. The travel cart appears every Friday and Sunday from 6:00 a.m. to 8:00 p.m. along the northern edge of the map and sells a wide selection of random goods. The Bear basket is located at the bottom of the Cindersap forest, on the spring bow patch and the entrance to the sewer. The Bear Basket will appear on the first not rainy day of the year 3. The interaction with Trash Bear will show the dialog bubble of a random desired item. After giving the Bear Basket the requested item by clicking on the Bear cart will show another request. The four requests will trigger a logging in which the bear basket plays pan-pipes, flies on an umbrella of leaves, and then cleans the debris in an unattainable area near the water, replacing the trash with bushes and trees. Trash Bear continues to fly on an umbrella in Pelican Town, where debris in Pam's backyard is removed. Dog pen Dusty also gets an update. Trash Bear will ask for 2 random seasonal fish or foraged items, followed by 2 cooked meals. Requests should not be completed on the same day or even in the same season. Requests are not updated at the beginning of each season. However, if the requested feed is seasonal, the Bear Trash request will change to fit the new season. Below is a full list of random seasonal items Trash Bear can request: Feeding Places in Cindersap Forest, where forage items can spawn. Standard forage items found on the ground in Cindersap Forest include: 1 forage items appear at an average rate of 1.8 per night in spring and autumn; In summer and winter, the fare is 1.6 per night. The map shows possible locations like red and purple tiles; When the original trees are present, purple tiles have a 90% less chance of spawning items because they are identified as behind the original trees. Spring onions can also be found in the Cindersap Forest during the spring. They appear only on the soil on a large southeastern island (green tiles on the map). Every night, any existing onions are removed, and a new bow spawns. These bows are not standard forage items and are therefore not counted as part of the limit of six items per card. The forest also contains a wide variety of trees that can be felled to collect wood and other items. Like all pre-existing trees outside the farm, they will automatically fight off as long as the stump is removed. Artifact spots are artifacts that can be found by digging up artifact spots in Cindersap Forest: Other possible items: Artifact caviar spots average 0.1 per night, except in winter, when the average rate increases to 1.0 per night. Village Trails Villager Paths in Cindersap Forest Several residents walk through the northern part of the forest at different times, so that items can be destroyed. However, items placed in the southern half of the forest are always safe. Fishing areas in the Cinderella Forest River. Cindersap Forest is map with different bodies of water contain a variety of fish: the river and the pond. Fishing is also part of the celebrations during the Ice Festival. The forest borders the ocean to the south. While you can throw the fishing rod from the rocks down to the ocean (near the bridge that leads to the area where the Flower Dance takes place), you will only catch river fish there, not ocean fish. The river is the main fishing spot in the Cindersap forest river flowing through it. It is a continuation of the river found in Pelican Town, and therefore contains basically the same river fish. Two fish, Chub and Dorado are in the forest river, but not in the city; Smallmouth Bass is located in the city, but not in the forest river (this, however, is in a forest pond). In addition, the forest river in winter is home to legendary fish, glacial fish. Fishing areas in Cinderella Pond. The second body of water for fishing in Cinderella is a large pond in the northwest corner. His choice of fish is more limited than the river (Carp, Som, Midnight Carp, Perch, Pike, Smallmouth Bass, and Walleye, depending on the season). Inquiries: For each commodity, the percentage provided is an average percentage of all feed items that will be specified item for this season. Inputs are Locations.xml, which are processed by the code in GameLocation::spawnObjects. Of the 14,400 tiles in Cindersap Forest, 2025 (14%) There are valid caviar places for standard forage elements. For more information on spawning forage elements see 14,400 common tiles in Cindersap Forest, 574 (4%) are real spawning places for artifact spots in spring, summer and autumn. 4065 (28%) are valid spawning grounds in winter. For more information, see the artifact spot. Story 1.4: Added basket bear. Garbage now respawns every spring 1. 1. stardew valley secret forest statue. stardew valley secret forest location. stardew valley secret forest bear. stardew valley secret forest emily. stardew valley secret forest food. stardew valley secret forest fish. stardew valley secret forest secret passage. stardew valley secret forest stardew valley
